

Benny Frisella

Dallas, Texas, 75252 | (512) 420-7987 | benny.j.frisella@gmail.com | [LinkedIn](#)

TECHNICAL SKILLS

Programming: Python, R, Java, C++, MapReduce, Spark, Statistical Programming

Machine Learning & AI: Supervised/Unsupervised ML, Artificial Intelligence, Predictive Modeling

Analysis & Visualization: Power BI, Tableau, Excel, AI/ML in Python

Infrastructure: DuckDB, MySQL, AWS, Docker

Certifications: IBM Data Science Professional

EDUCATION

The University of Texas at Dallas | Richardson, Tx

Bachelor of Science, Data Science

Dec 2025

GPA 3.56

Austin Community College | Austin, Tx

Associate of Science, Physics

Dec 2022

GPA 3.88

ACADEMIC PROJECT EXPERIENCE

Technical Lead | [UT Dallas Office of Technology Innovation Capstone](#)

Aug 2025 – Dec 2025

- Served as technical lead for a multidisciplinary capstone team, directing solution architecture and development of a Power BI analytics platform for UT Dallas' Office of Technology Commercialization.
- Engineered a scalable ETL pipeline and automated DAX reporting framework, enabling scheduled dashboard refreshes and executive-level KPI tracking informed by benchmarking research from 20+ universities.

Technical Lead | [Empowering Women](#)

Jan 2024 – May 2024

- Aggregated data from 100+ sources on USDA website into a Tableau density map demonstrating the disparities between female/male producers in each county across the US.
- This was the only project in the class to be absorbed by the USDA for future work.

Technical Lead | [Database Design](#)

Aug 2024 – Dec 2024

- Engineered an end-to-end relational database normalized to 3NF to model comprehensive real-world business operations, utilizing complex queries, views, and recursive hierarchies.
- Programmatically synthesized and populated thousands of constraint-respecting data records using Python and the Faker library, maintaining absolute referential integrity across complex multi-stage operational tables.

Technical Lead | [Predicting Diabetes](#)

Jan 2025 – May 2025

- Improved data quality through cleaning, outlier treatment, and custom imputation, enhancing model performance.
- Performed exploratory data analysis (EDA) using feature standardization, correlation analysis, and feature importance metrics to identify key predictive relationships.
- Developed and optimized machine learning models including LDA, QDA, Random Forest, and XGBoost, improving predictive accuracy on non-linear healthcare data.

WORK EXPERIENCE

Service Technician | Mid-America Apartments (MAA) | May 2015 – Aug 2024

- Maintained a 100% customer satisfaction rating over a 9-year tenure.
- As maintenance lead, reduced ticket response time by over 150%.
- Improved Standard Operating Procedures (SOPs) and ticket satisfaction scores from 80% to 100%.

LEADERSHIP EXPERIENCE

Technical Lead | UT Dallas Undergrad | Aug 2023 – Dec 2025

- Consistently served as technical lead for cross-functional university project teams, owning solution architecture, implementation strategy, and backend development across multiple data science initiatives.
- Guided project execution from requirements gathering through final delivery, coordinating team contributions and ensuring scalable, high-quality analytical solutions were delivered on schedule.
